

Model 150 cm

This diagram illustrates the exploded view of a medical device, likely a catheter or probe, with 13 numbered components. The components are as follows:

- 1: A small cylindrical component, possibly a connector or plug.
- 2: A long, thin, flexible tube or cable.
- 3: A central, pointed probe or needle.
- 4: A component that appears to be a connector or a part of the handle assembly.
- 5: A curved, flexible tube or cable, possibly a return line or a different type of catheter.
- 6: A component that looks like a connector or a part of the handle assembly.
- 7: A long, thin, flexible tube or cable, similar to component 2.
- 8: A component that appears to be a connector or a part of the handle assembly.
- 9: A component that looks like a connector or a part of the handle assembly.
- 10: A component that appears to be a connector or a part of the handle assembly.
- 11: A component that appears to be a connector or a part of the handle assembly.
- 12: A component that appears to be a connector or a part of the handle assembly.
- 13: A component that appears to be a connector or a part of the handle assembly.
